

Fresno JATC Policies and Procedures

09/09/2024

Self-Elimination Policy:

The Fresno Area Electrical Training Center (Fresno JATC) adheres to a strict, transparent self-elimination policy. Unless specified otherwise, each infraction of the Fresno JATC's Rules and Regulations, as well as any Poor Student Evaluation(s) (PSE), and Poor Work Evaluation(s) (PWE), will result in 1 point toward the self-elimination policy. Any apprentice who accrues seven (7) points will automatically be suspended from work and dispatch pending JATC Committee review. After the consideration and review of the JATC Committee, any apprentice who has accrued seven (7) points toward the self-elimination policy will be self-eliminated and subsequently terminated from the apprenticeship. Any apprentice has the right to appeal action (points) taken by the JATC Committee. The apprentice is required to complete all assigned remediation RSI while waiting for the JATC Committee to act on any appeal. Any unexcused missed scheduled remediation RSI will be considered an unexcused absence (see unexcused absence)

Probation:

Probation-Each apprentice will be on probation for one year from the apprentice's indenture date or first 2000 hours of OJT, whichever is shorter. The assessment of one (1) point toward the self-elimination policy while on probation will result in the termination of the apprentice from the program.

Disciplinary Alert:

Disciplinary Alert-Placement on disciplinary alert is considered the same as being on probation. The assessment of one (1) point toward the self-elimination policy while on disciplinary alert will result in the termination of the apprentice from the program. The committee has the right to place an apprentice on disciplinary alert at any time. Any apprentice who accrues two (2) or more points in a calendar year will automatically be placed on disciplinary alert.

Related Supplemental Instruction (RSI)

The Fresno JATC intends to use remediation classes to help any apprentice struggling, whether that is in the classroom or in the lab training hands on skills. The Fresno JATC will offer tutoring for both the theoretical aspects of our industry, and hands-on training by offering evening classes year-round. These classes may be attended voluntarily by any apprentice. The classes may also be assigned by the Training Director to apprentices that are deemed to need supplemental instruction by the JATC staff. Not attending assigned remediation classes will be considered an unexcused absence (see attendance policy).

Failed quarter-Each apprentice will earn one (1) cumulative grade for each quarter. This score will be an average of classroom and hands-on examinations. Failure to achieve a passing score of 75% average score for the quarter will result in a poor student evaluation (see poor student

evaluation) as well as four (4) hours every other week of mandatory remediation RSI. Remediation RSI will be assigned by the Training Director immediately after the class session is completed and continue until the apprentice retakes the appropriate exam(s) and raises the quarter grade to 75% minimum. Upon successful completion of remediation RSI and retesting, the quarter grade will reflect a passing grade of 75%. Four (4) hours of remediation RSI are required before and between retesting. *Each individual offence will result in a poor student evaluation, which will incur a one (1) point assessment toward the self-elimination scale.* Any apprentice may seek an appeal from the JATC committee yet will continue remediation RSI until the appeal has been heard.

Failed Craft Certification Exam-Upon failing any part of the craft certification exam, the apprentice will be required to take a minimum of four (4) hours remediation RSI and reschedule a test date with the JATC. Remediation RSI will be scheduled by the JATC staff with the permission of the Training Director. Any wage increase will be withheld until the apprentice has passed the craft certification exam. *There will be no point assessed for failure to pass craft certification.*

California State Licensing-Apprentices must pass the California State General Electrician Exam to graduate from the Fresno JATC. Apprentices will remain a 10th period apprentice until proof is shown of passing the state exam. The apprentice will continue to fulfill all the obligations of apprenticeship until proof of passing the state exam is shown, this includes attending school. Apprentices will have one year from their originally scheduled graduation date to pass the state exam at which time the apprentice will be terminated from the program. *There will be no point assessment for failure to pass the state exam.*

Failure to complete Homework-Coursework will be assigned and scheduled by the JATC instructor. All coursework is expected to be completed on the schedule provided by the instructor. Any course work not completed according to the assignment schedule will result in a poor student evaluation (see poor student evaluation). The 1st offence will result in four (4) hours of assigned remediation RSI, a 2nd offence will result in eight (8) hours of assigned remediation RSI, a 3rd offence will result in sixteen (16) hours of assigned remediation RSI, a 4th offence will result in twenty-four (24) hours of assigned remediation RSI, a 5th offence will result in thirty-two (32) hours of assigned remediation RSI, a 6th offence will result in forty (40) hours of assigned remediation RSI. Remediation RSI will be assigned by the Training Director immediately after the class session has ended. Any apprentice may appeal a poor student evaluation yet will continue remediation RSI until the appeal has been heard.

Poor student evaluations-Student evaluations shall score class attitude, homework, personal attitude, participation and test scores. The JATC Committee and Training Director have the authority to transfer an apprentice within an employers' organization.

When an apprentice has worked for an employer for approximately one (1) year (TBD by the JATC), that apprentice will be considered available for rotation. Rotation dates can vary and may be postponed with JATC approval. Employers and apprentices must be given a minimum of two (2) weeks' notice of the rotation date. Notice will be given electronically to both the apprentice and the employer.

The selection of the apprentice's employer will be determined by the Training Director. Employer selection will be based on work process hours, work process deficiencies, and possible upcoming projects that may be of benefit for an apprentice.

To mitigate excessive travel costs, job location and proximity to the apprentice's home will be a priority during the apprentice's 1st, 2nd, 3rd, and 4th periods (pay scale). After such time, an apprentice will be rotated without regard to daily travel.

When any apprentice has worked for an employer for a minimum of 6 months, that apprentice may request a rotation from the JATC. If no employer is available, the apprentice shall be put on the out of work list.

The rotation request to a contractor of their choice may only be used once by the apprentice.

All rotation requests must be made by e-mail or letter to the Training Director.

Rotations can be made to achieve well-rounded work experience or to mitigate conflicts that can arise between apprentice and journeyman.

Specific requests to prompt, postpone, or prohibit apprentice transfers, whether made by the apprentice, the employer, or the union, shall be considered on a case-by-case basis by the JATC Committee. Placement with any employer, at any specific jobsite, and performing any general classification of electrical work, shall be at the discretion of the committee. The decisions of the committee concerning apprentice transfers shall be final.
